WHY ALEPO

I Future-Ready Solutions

We design configurable, cloud-native solutions that enable rapid deployment while providing flexibility to adapt to tomorrow's challenges. Our platforms support both legacy and cutting-edge technologies, protecting your investments.

I Accelerated Time-to-Market

Our pre-integrated components and automated deployment frameworks help CSPs launch new services in weeks rather than months. Our agile approach minimizes disruption while maximizing speed to revenue.

I True Partnership Approach

We work as an extension of your team. Our telecom experts bring deep industry knowledge and practical solutions to complex challenges, ensuring your success at every step.

Cloud-Native Platform

AI-Powered Solutions

5G Ready Architecture

ACCELERATING GROWTH FOR CSPs

Alepo has been at the forefront of telecommunications innovation for 20+ years, delivering modern, intelligent software solutions that help Communication Service Providers evolve faster in an increasingly connected world.
From supporting some of the first ISPs to implementing pioneering LTE networks and now leading the charge toward 5G and AI-powered telecommunications, our global presence spans more than 50 countries with headquarters in Austin, Texas.

SECURITY BY DESIGN

Security is fundamental to everything we build. Our solutions incorporate end-to-end encryption, role-based access control, comprehensive audit trails, regular security assessments, regulatory compliance, and secure development practices integrated throughout our SDLC.

AI DRIVEN CUSTOMER EXPERIENCE

AI Customer Assistant

Our advanced generative AI platform transforms customer interactions with human-like conversations across digital channels, resolving 90% of inquiries without human help.

AI Agent Assistant

Empower your service team with intelligent AI-driven support for real-time guidance, faster resolutions (40–70%), quicker onboarding, and instant ROI.

Omnichannel Self-Care

Create seamless digital experiences across web, mobile, and social platforms. Our intuitive self-care solutions drive adoption rates 3x higher than industry averages.

BUSINESS SUPPORT & MONETIZATION

Digital BSS

Modernize your BSS with our 5G-ready digital stack. Whether upgrading legacy systems or launching new services, our flexible approach ensures seamless migration with minimal disruption.

Digital MVNO-in-a-Box

Launch mobile services within weeks using comprehensive solution that integrates digital tools, BSS functions, and eSIM activation. Purpose-built to capture digital-native market segments.

Monetization Solutions

Implement flexible charging models, personalized offers, and contextual promotions that increase ARPU and reduce churn. Our platforms enable CSPs to create compelling packages tailored to customer behavior.

NETWORK ACCESS CONTROL

AAA Solutions

Our carrier-grade Authentication, Authorization, and Accounting platform optimizes performance across WiFi, FTTx, 5G, and other IP-based networks. With 99.999% availability.

Private 5G

Deploy secure, reliable private 5G networks for enterprise customers with our end-to-end solution. Partnering with leading radio network vendors, we provide core network components.

Carrier WiFi

Monetize WiFi services while enhancing overall customer experience. From seamless onboarding to advanced policy control, we help you turn WiFi from a cost center into a strategic revenue driver.

TWO DECADES OF INNOVATION EXCELLENCE

Built on 20 years of telecom expertise, Alepo combines proven credibility with a future-forward approach to solve today's most pressing CSP challenges. Our innovation legacy runs deep—from pioneering early ISP solutions to developing cutting-edge AI platforms transforming telecommunications today.

WHAT SETS US APART:

Continuous Evolution

We refine our platforms based on emerging market needs

Practical Innovation

We solve real-world problems, not just develop technology

Collaborative Development

We co-create solutions with customers

Future-Proofing

We design every solution with tomorrow's requirements in mind

RECOGNITION AND CERTIFICATIONS

TM Forum Open API Certification

5G Ready Certification

ISO 27001 Information Security

ISO 9001 Quality Management
